# 2

To strengthen ties with the labor market, Azerbaijan University regularly attends and participates in national and international exhibitions, career fairs, and educational forums.

# 3

Azerbaijan University plays an active role in fostering a culture of economic empowerment and workforce development.

## Decent work and economic growth (SDG 8)

Azerbaijan University is committed to promoting inclusive and sustainable economic growth by preparing students for the demands of the modern workforce and supporting decent work opportunities for all. The university integrates career readiness and entrepreneurship into its educational programs, aiming to equip students with the skills needed for lifelong employability and innovation.

To strengthen ties with the labor market, Azerbaijan University regularly attends and participates in national and international exhibitions, career fairs, and educational forums. These events offer students and graduates valuable networking opportunities and exposure to potential employers, helping them transition more effectively into professional life.

The university also provides internship opportunities, career counseling services, and training workshops designed to enhance practical skills, support job placement, and encourage entrepreneurial thinking. Through these efforts, Azerbaijan University plays an active role in fostering a culture of economic empowerment and workforce development.

By aligning its academic mission with economic growth strategies, Azerbaijan University supports Sustainable Development Goal 8 and contributes to building a more resilient and inclusive economy for the future.
