

## Health Support Report for 2024–2025

During the 2024–2025 academic year, Azerbaijan University continued to prioritize the health and well-being of its students and staff by providing accessible and high-quality medical support on campus.

Throughout the year:

- **15 staff members** applied to the university's medical point with complaints related to **high blood pressure** (hypertension).
- **98 students** sought medical assistance for various conditions, including **fever, headache, vomiting**, and other common symptoms.

All individuals who visited the medical point received **highly qualified and timely medical care** from the professional healthcare staff available on-site. The university's medical team ensured that each case was handled with care, confidentiality, and in accordance with health and safety standards.

These efforts reflect the university's ongoing commitment to maintaining a safe and supportive environment that promotes the physical and mental well-being of its academic community.
